

Elements in a report

A report is composed by a set of bands which contain elements. Elements are presented in the iReport palette. They can be simple shapes like the rectangle and the line, or complex objects like a subreport or a crosstab. The most common ones are presented in this report.

iReport is the free, open source report designer for JasperReports. Create very complex layouts containing charts, images, subreports, crosstabs and much more. Access your data through JDBC, TableModels, JavaBeans, XML, Hibernate, CSV, and custom sources. Then publish your reports as PDF, RTF, XML, XLS, CSV, HTML, XHTML, text, DOCX, or OpenOffice.
